Our Vision

Together, Caring for the West
Patients – Employees – Community – Environment

- Tracks all sterilizing processes and RMD's via a computerized tracking system known as ScanCARE. This is an important infection control management tool, as it allows for tracking of items directly to the patient and allows for the recall of items to be carried out quickly and efficiently.

Maintaining standards within the CSSD is reliant on teamwork, ongoing staff education, staff support, leadership and continual quality improvements.

Key Responsibilities

- Act as a role model to all staff.
- Recognize the importance of maintaining an atmosphere that facilitates teamwork and promotes a safe working environment.
- Complete the Hospital and CSSD orientation packages within 3 months of commencing at Western Health, including online mandatory education
- Understand the importance and actively support the implementation of all standards relevant to CSSD: AS/NZS 4187:2014, GENCA guide lines and Infection Control Guidelines for the Prevention of Transmission of Infectious Diseases in the Healthcare Setting
- Understand and apply the principles of Spaulding's classification in their daily work
- Understand and apply reprocessing information in relation to the RMDs product family and Information for use (IFU).
- Maintain a record of education
- Participate in a performance review with the CSSD manager annually
- To be proactive and responsible in applying the education learnt in CSSD to the clinical setting
- Maintain open and honest communication with the NUM, CSSD and senior staff.
- Adhere to all hospital policies, procedures and Worksafe legislation.
- Notify Unit Manager/ITM/Floor Coordinator of equipment faults that require repair or is a potential Worksafe, and complete a BIEMs or Riskman to support this.
- Notify Manager of any potential or actual breeches in hospital, standards, work practices, procedures or any related issues that could affect the efficient running of the department.
- Ensure confidentiality of information pertaining to colleagues, patients and their significant others
- Be able to work with a high degree of autonomy and accountability in all areas of the CSSD without supervision, including Endoscopy and Loans areas, where applicable
- Be able to navigate the hospital intranet system, including Riskman, Welearn, repair requests, rosteron and access hospital procedures. Maintain an active email address, Be able to lodge and follow up a BEIMS and IT request
- Understand the importance of tracking RMD's from decontamination through to the end user and actively seek to increase knowledge about the hospital tracking system from the scancare co-coordinator and senior staff
- Enter data into the tracking system and be able to navigate the tracking system with a high degree of autonomy. Understand the more complex areas of the program to assist with RMD tracking information, such as product families
- Participate in a recall of RMD's
- Be able to assist with the etching of RMD's if required
- Understand the importance of prioritized equipment.
- Understand the importance of and complete documentation as required.
- Understand the safe and correct use of supplies/stock.
- Provide notification of low levels of consumables and stock to management.
- Assist with the ordering of store
- Understand and participate in equipment testing, cleaning and maintenance in line with hospital and manufacturer's standards.
- Support the Manager, as directed with the annual validation of CSSD equipment with the reprocessing of RMDs, wrapping/steripeeling of RMDs/ checking biologicals.
