

POSITION DESCRIPTION

Position Title:	Consultant General Paediatrician
Business Unit/Department:	Paediatrics Services
Division:	Women's & Children's
Award/Agreement:	Victorian Public Health Sector (AMA Victoria) Enterprise Agreement
Classification:	HM33 to HM59
Reports To:	Clinical Services Director, Head of Unit, Chief Medical Officer
Direct Reports:	Junior medical employees
Date Prepared/Updated:	1 July 2023

Position Purpose

To provide high quality clinical care to paediatric and adolescent patients and their families. To supervise and train Junior Medical Staff in the delivery of Best Care to paediatric patients. To support Western Health Strategic Priorities and participate in the promotion and improvement of paediatric services.

Business Unit Overview

Western Health provides inpatient and outpatient paediatric care for children with a wide range of medical and surgical conditions. The General Paediatricians regularly liaise with other departments within Western Health as well as with the tertiary centres for Paediatric care in Victoria. Paediatric inpatient and ambulatory services sit within the Division of Women's and Children's Services. The Paediatric service at Western Health operates from several sites at Western Health including Joan Kirner Women's and Children's at Sunshine Hospital (Paediatric Inpatient Unit and Outpatients), Bacchus Marsh Hospital (Special Care Nursery and Paediatric Outpatients), and Melton Health Community Paediatrics. General Paediatricians may be asked to work across any of the Western Health sites. .

The dedicated Paediatric Emergency sees over 30,000 presentations annually, and this service works closely with the Paediatric Medicine inpatient and outpatient services. There are approximately 5,000 paediatric admissions annually to the Children's Ward, with further admissions to the Day of Surgery Unit. Outpatient paediatric services are provided in General Paediatric Medicine, Neonatal Medicine, Behavioural and Developmental Assessment, and a number of subspecialty services including Cardiology, Endocrinology, Neurology, Allergy, and Dermatology. There is a 3-bed Level 3 Special Care Nursery operating at Bacchus Marsh Hospital (staffed by General Paediatricians). The multidisciplinary community paediatric service at Melton Health provides a range specialty neurodevelopmental assessment and therapy clinics including Autism Assessment Clinics and Pathways to Good Health clinics. Joan Kirner Women's and Children's at Sunshine Hospital also has a Level 6 neonatal inpatient service (staffed by Neonatologists) supporting the large maternity service at Joan Kirner Women's and Children's. The Paediatric Medicine unit supports the longitudinal care for patients within the Newborn Service.

Western Health supports medical student education with students from The University of Melbourne.

Our Vision

Together, Caring for the West
 Patients – Employees – Community – Environment

Key Responsibilities

- Provide leadership and clinical care to patients in outpatient and/or inpatient services, including General Paediatrics and/or Behavioural and Developmental services.
- On-call service for inpatients may be required and timely attendance for recall is required.
- Provide timely advice to Junior Medical Staff, multidisciplinary staff, and other colleagues to promote appropriate clinical care to patients.
- Attend consulting clinics and inpatient wards as scheduled and ensure appropriate handover and follow-up plans are provided to allow continuity of care for patients.
- Accurately reflect the patient's treatment plan, requirements, outcomes or events within prescribed documentation to support ongoing care and communication.
- Ensure clear, timely, and appropriate communication occurs with other practitioners including community general practitioners
- Develop patient care plans that reflect the needs of patients and their significant others and demonstrates understanding of the role of community providers
- Be accountable for managing patient wait lists and timely triage of new referrals where applicable.
- Practice evidence-based medicine and analyse and use data to guide decisions, assess outcomes, and identify areas of improvement in clinical practice
- Participate in resolving problems in care and to ensure that the Unit/ Department Head is aware of relevant issues and problems
- Provide consistent supervision and be accountable for the care delivered by junior medical staff.
- Participate in the development, implementation and revision of treatment protocols and clinical guidelines to promote and ensure best practice standards
- Participate in departmental service planning as requested by the Unit/ Department Head and Clinical Service Directors including the development and setting of targets, resource requirements and improvement priorities for the service agreement
- Actively participate in departmental, divisional, or organisational wide quality and credentialing processes, including clinical work review groups.
- Participate in clinical teaching and professional development of junior medical staff, medical students and students of all health professions and disciplines.
- Maintain personal qualifications and expertise in accordance with continuing certification requirements of relevant medical college or other body
- Ensure that any dealings with the media, including interactions on social media, are in accordance with Western Health policy, procedure and privacy legislation
- Contribute to creating and maintaining a work climate which is conducive to positive morale and employee growth, development and retention
- Ensure own health and well-being and seek assistance if impairment in physical or mental health is impacting on job performance
- Work collaboratively and respectfully with multi-disciplinary team members to achieve desired outcomes for patients through effective communication and attendance and participation in unit and site clinical meetings
- Exchange and share information from participation in seminars and conferences with colleagues via in-services, presentations, education forums, team meetings, etc.
- Build networks and participate in benchmarking to seek and share information to assist in developing best practices
- Demonstrate a caring and empathetic approach towards patients at all times
- Comply with Western Health financial systems, policies and processes
- Identify business opportunities through available funding streams and develop and prepare business cases to optimise funding opportunities and business development
- Ensure the ability to receive and return organisational relevant information and communication through phone, and/ or voicemail and email within time limits set by the organisation
- Acquire and maintain sufficient relevant computer/technology skills and utilise these to participate in services and communication offered by Western Health
- Undertake other duties and instructions as provided by the Head of Unit
