

POSITION DESCRIPTION

Position Title:	Paediatric Allergist
Business Unit/Department:	Paediatrics
Division:	Women's & Children's Services
Award/Agreement:	Victorian Public Health Sector (AMA Victoria) - Enterprise Agreement
Classification:	HN15 to HN59
Reports To:	Clinical Services Director, Head of Unit, Chief Medical Officer
Direct Reports:	Junior medical employees
Date Prepared/Updated:	21 January 2025

Position Purpose

The role of the Paediatric Allergy Consultant/Specialist is to provide high quality clinical care to Western Health patients, to supervise and train Junior Medical Staff and support Western Health Strategic Priorities. A Paediatric Allergist is required in order to support the general paediatricians of Western Health evaluate and manage children with allergic conditions locally.

Business Unit Overview

Western Health provides inpatient and outpatient paediatric care for children with a wide range of medical and surgical conditions. The Paediatricians regularly liaise with other departments within Western Health as well as with the tertiary centres for Paediatric care in Victoria. Paediatric inpatient and ambulatory services sit within the Division of Women's and Children's Services. The Paediatric service at Western Health operates from several sites at Western Health including Joan Kirner Women's and Children's at Sunshine Hospital (Paediatric Inpatient Unit and Outpatients), Bacchus Marsh Hospital (Special Care Nursery and Paediatric Outpatients), and Melton Health Community Paediatrics (Outpatients). Staff may be asked to work across any of the Western Health sites.

The dedicated Paediatric Emergency sees over 30,000 presentations annually, and this service works closely with the Paediatric Medicine inpatient and outpatient services. There are approximately 5,000 paediatric admissions annually to the Children's Ward, with further admissions to the Day of Surgery Unit. Outpatient paediatric services are provided in General Paediatric Medicine, Neonatal Medicine, Behavioural and Developmental Assessment, and a number of subspecialty services including Cardiology, Endocrinology, Neurology, Allergy, and Dermatology.

Western Health supports medical student education with students from The University of Melbourne.

Our Vision

Together, Caring for the West
Patients – Employees – Community – Environment

Key Responsibilities

The position of Paediatric Allergist has the following responsibilities:

- Undertake a regular paediatric allergy OP clinic at Sunshine Hospital, in conjunction with a General Paediatrician, Allergy Nurse, and general paediatric trainees.
- Evaluation, diagnosis and management of children with allergic and/or immunologic disorders in the outpatient setting.
- Provide clinical supervision to staff attending the clinic.
- Participate in a triaging process that ensures the resources of the Paediatric Allergy clinic are used efficiently and effectively.
- Oversee low-risk oral food challenges (when this service commences)
- Participate in service delivery improvement activities and assist in development of service planning; including liaison with RCH Department of Allergy and Immunology.
- Participate in Women's and Children's Division teaching and quality activities and provide teaching and training for medical students, junior medical and nursing staff.
- Involvement in research and audit projects to inform service enhancement.
- Assume responsibility for quality patient care in accordance with the care model of the unit, ensuring that clinical care is performed in accordance with Western Health policy and procedure
- Accurately reflect the patient's treatment plan, requirements, outcomes or events within prescribed documentation to support ongoing care, communication and to ensure that all legal requirements are met in regards to legibility of content and identity of reporter in accordance with Western Health policies and procedures
- Provide advice to General Paediatricians regarding assessment and management of paediatric allergic conditions.
- Participate in resolving problems in care and to ensure that the Unit/ Department Head is aware of relevant issues and problems
- Ensure continuity of care by communicating appropriately with other practitioners including community general practitioners
- Ensure that the care of all patients is handed over or other suitable arrangements for follow up, including follow up of results is in place when on leave
- Develop and maintain strong relationships with other departments and external partners.
- Participate in the development, implementation and revision of treatment protocols and clinical guidelines to promote and ensure best practice standards
- Actively contribute to Western Health's ongoing development through involvement in hospital wide activities and national and/or international organisations
- Participate in service planning as requested by the Unit/ Department Head and Clinical Service Directors including the development and setting of targets, resource requirements and improvement priorities for the service agreement
- Actively participate in departmental or organisational wide quality and credentialing processes, including clinical work review groups
- Ensure that any dealings with the media are approved and in accordance with policy, procedure and privacy legislation
- Contribute to creating and maintaining a work climate which is conducive to positive morale and employee growth, development and retention
- Ensure own health and well-being and seek assistance if impairment in physical or mental health is impacting on job performance
- Work collaboratively and respectfully with multi-disciplinary team members to achieve desired outcomes for patients through effective communication and attendance and participation in unit and site clinical meetings
- Exchange and share information from participation in seminars and conferences with colleagues via in-services, presentations, education forums, team meetings, etc.
- Build networks and participate in benchmarking to seek and share information to assist in developing best practices
- Demonstrate a caring and empathetic approach towards patients at all times
- Participate and contribute to improvement of policies, procedures and protocols and identify areas of improvement in clinical practice.
- Participate in clinical teaching and professional development of junior medical staff, medical students and students of all health professions and disciplines.
