### Position Purpose

The Grade 2 Physiotherapist (Aged and Complex Care) has a key role in providing clinical expertise and skills to ensure excellence and best practice in patient care. In addition to physiotherapy expertise in aged and complex care physiotherapy, Grade 2 physiotherapists contribute to the development of staff and students. This includes the supervision and training of Grade 1 physiotherapists and allied health assistants; and co-ordination, supervision and training of physiotherapy student placements. The Grade 2 Physiotherapist applies effective communication skills within the multidisciplinary team and participates in service development and quality improvement. They are expected to maintain their currency of knowledge and skill in their specialty area and ensure an evidence-based approach to patient management. This position involves rotations across acute and subacute clinical areas within the Aged and Complex Care stream.

### Business Unit Overview

The Operations Directorate is one of the largest and most complex directorates within Western Health providing Western Health's patient care and contacts. These services range from outpatients to inpatients, theatres to Intensive Care, birthing rooms and Emergency Departments and many more services.

Allied Health provides a range of evidence based, client centred, specialist services at Western Health, across the care continuum, from admission within the emergency department through to discharge in the community. These services work across the spectrum of life, from neonates to the elderly. The predominant focus of Allied Health is the return and optimisation of an individual's function, and wellbeing, from both physical and psycho-social perspectives. Activity is aligned with Western Health's Best Care Model and CARES values. Allied Health involvement is pivotal to efficient and effective multidisciplinary team functions, discharge planning and patient centred care. Western Health employs a range of Allied Health disciplines, each with unique specialist tertiary training and skills, including:

- Audiology
- Clinical Psychology and Neuropsychology
- Exercise Physiology
