Date Prepared/Updated:	8 January 2025

Position Purpose
<p>The role of the Director of Paediatric Emergency Medicine is to provide clinical, professional, and academic leadership in the discipline of Paediatric Emergency Medicine at Western Health. The Director has the responsibility for the effective management and leadership of the department and the provision of services consistent with Western Health Strategic Priorities.</p> <p>The role oversees consultant and junior medical staff to ensure that high quality clinical care is provided to paediatric patients presenting to the Emergency Department, and to supervise and train Junior Medical staff. The role will have clinical, administrative, educational, research and advocacy components, and will also represent Western Health in discussions with other acute paediatric services in the metropolitan area. This role, in collaboration with the Operations Manager, will oversee the management of the units' financial budgets, medical staffing requirements and Key Performance Indicators to deliver on organisational and Divisional operational priorities.</p>
Business Unit Overview
<p>The Division of Emergency Medicine and Intensive Care (EMIC) Services spans across 5 Western Health sites encompassing three emergency departments, two urgent care centres and two intensive care units.</p> <p>Delivering care to over 200,000 patients annually the Division is committed to innovation, the development of services and treatment of diverse population groups across Western Health to ensure Best Care for the community of Western Melbourne.</p> <p>The Divisional Director (DD) and the Clinical Services Director (CSD) function in partnership to provide leadership, clinical, operational and financial governance to the Division ensuring the efficient and effective delivery of Best Care within allocated resources.</p>

Our Vision

Together, Caring for the West
Patients – Employees – Community – Environment

Key Responsibilities

Clinical Duties:

The Director of PEM will perform clinical duties in the ED at Sunshine Hospital. This includes:

- Quality patient care via clinical assessment, appropriate investigation and development of management plans
- Performance of required clinical procedures with appropriate skill and the ability to supervise others in the performance of those procedures
- Liaison with other team members, and communication with patients and their relatives as required.
- Timely notification to the appropriate inpatient team of admitted patients
- Liaison with retrieval services for patients requiring tertiary hospital referral
- Responsibility for communication with community providers
- Clinical handovers

Workforce:

- Ensure medical staff are appropriately registered, credentialed and working within their scope of practice and that relevant regular clinical audits occur and are documented
- Ensure awareness of clinical experience and proficiency of junior medical staff who are delegated to deliver care, and provide supervision for, and be accountable for the care delivered
- Provide consistent and appropriate leadership and supervision to Junior Medical Staff
- Manage staff through effective recruitment, retention, recognition and development strategies
- Provide leadership and support for direct reports, appraise their performance, and ensure staff complete mandatory and required training
- Ensure staff are appropriately appointed and credentialed within their scope of practice defined according to organisational policy
- Ensure staff leave is appropriately managed
- Contribute to creating and maintaining a work climate which is conducive to positive morale and employee growth, development and retention
- Ensure our staff's health and well-being is prioritised and assist them to seek assistance if impairment in physical or mental health is impacting on job performance
- Ensure on call roster, and in hours provision of service are achieved

Operations:

- In collaboration with the Operations Manager, Clinical Services Director and Divisional Director within the respective Division, manage services to provide efficient models of care and to monitor activity, KPIs and budget performance
- Analyse and use data to guide decisions and evaluate outcomes
- Participate in service planning as requested by the Clinical Services Director and Divisional Director, including the development and setting of targets, resource requirements and improvement priorities for the service agreement.
- Participate in developing department and personal priority goals and objectives consistent with the mission, philosophy and strategic plan of the organisation
- Ensure that any dealings with the media are approved and in accordance with policy, procedure and privacy legislation
- In partnership with the Operations Manager, be involved in the management of the department's budget and strategic and financial planning
- Participate in the development and monitoring of financial risk reduction and identify and implement strategies for cost control
- Identify revenue opportunities through available funding streams and develop business cases to optimise opportunities and business development that are consistent within current guidelines, and make recommendations to improve the latter. Be accountable for Key Performance Indicators, including Statement of Priority Indicators related to the Paediatric Emergency Department.
- Oversee and monitor KPIs as they relate to the department, including clinical audit, morbidity and mortality as well as other access and quality indicators

Quality and Safety:

- Assume responsibility for the quality of patient care provided within the paediatric Department, in conjunction with the department Nurse Unit Manager, in accordance with the model of care of the

Our Vision

Together, Caring for the West
Patients – Employees – Community – Environment

department, and ensure that clinical procedures are performed in accordance with the relevant Western Health policies and procedures

- Ensure that consultations, treatment, care plans and other clinical management are delivered and documented to support ongoing care and communication, and meet medico-legal requirements in accordance with relevant Western Health policies and procedures
- Participate in resolving problems in care delivery, utilising a multidisciplinary approach
- Ensure that the provision of discharge summaries by ED medical staff of patients discharged to the community from ED are undertaken in a prompt manner, thereby supporting the ability of community providers, including GPs, to continue appropriate care
- Ensure that procedures are in place so that continuity of care for patients occurs by communicating appropriately with other practitioners including community general practitioners
- Ensure that procedures are in place so that the care of all patients is handed over to the appropriate delegate, or that other suitable arrangements for follow up, including management of patient results, are in place
- Oversee, and lead by example, in the delivery, management and promotion of high-quality clinical care to all patients of Western Health
- Participate in the development, implementation and revision of treatment protocols and ensure adherence to best practice standards appropriate to each department through the utilisation and development of clinical guidelines
- Actively contribute to Western Health's ongoing development, i.e. through involvement in hospital wide activities, national and/or international organisations
- Actively participate in departmental or organisational wide quality and credentialing processes, including clinical work review groups
- Exchange and share information from participation in seminars and conferences with colleagues via in-services, presentations, education forums, team meetings, etc.
- Establish and maintain professional relationships with employees, other professional groups, units/departments and/or community agencies
- Build networks and participate in benchmarking to seek and share information to assist in developing best practices
- Always demonstrate a caring and empathetic approach towards patients
- Participate in the improvement of policies, procedures and protocols, and identify areas for improvement in clinical practice.
- Participate in professional development activities provided by the health service, and keep up to date with relevant developments in clinical and hospital practice and policies

Research and Education:

- Develop a research agenda within the department, including literature reviews, development of evidence based practices and the collation of data to publish or present results of this work each year
- Participate in clinical teaching and professional development of junior medical staff, medical students and students of all health professions and disciplines, including the involvement of students in clinical care
- PLS Course coordination (or delegation)
- Maintenance of APLS instructor certification
- Coordination / delegation of PEM education within the ED
- Development of simulation education including necessary staff and equipment

Other:

- Maintain personal qualifications in accordance with continuing certification requirements of the relevant medical college or other body
- Comply with Western Health financial systems, policies and processes
- Maintain a high and accurate level of clinical and financial recording
- Ensure that appropriate medical documentation audits occur regularly
- Manage and operate in accordance with Western Health Human Resource policy and practice in all matters relating to recruitment and employment
- Receive and return organisational relevant information and communication through phone, and/or voicemail and email within time limits set by the organisation
