

POSITION DESCRIPTION

Position Title:	Registered Nurse – Cardiac Services
Business Unit/Department:	Cancer, Cardiology & Specialty Medicine
Division:	Cancer, Cardiology & Specialty Medicine
Award/Agreement:	Nurses and Midwives (Victorian Public Sector) (Single Interest Employers) Enterprise Agreement
Classification:	Grade 2 Year 2 – Year 8 (RN/M 2-8)
Reports To:	Nurse Unit Manager or Nurse in Charge
Direct Reports:	N/A
Date Prepared/Updated:	4 March 2026

Position Purpose

As a member of the health care team, the Registered Nurse is at the forefront of the provision of high quality nursing care to consumers on a day-to-day basis.

As a healthcare professional, the Registered Nurse is accountable for :

- The maintenance of their own clinical knowledge, further education and working within the confines of their specific scope of practice at all times, in accordance with the boundaries set by their experience and skill
- Ensuring that they are registered to work as a Registered Nurse in Australia at all times whilst working as a nurse within Western Health and practice in alignment with Nursing & Midwifery Board of Australia (NMBA) Registered Nurse Standards for Practice

The role of the Registered Nurse, working within a multidisciplinary team, incorporates the following activities: unsupervised clinical practice, coordination of care, counselling, health promotion and teaching, consumer advocacy, collaborative consumer and unit management, research, supervision and mentorship/preceptorship, interaction/liason with multidisciplinary team, accurate and timely documentation.

The Registered Nurse will contribute to providing quality health and well-being services for our consumers demonstrating novice to expert behaviours across the five domains of leadership, research, evidence-based practice, education & learning and clinical expertise as identified in the Western Health Nursing and Midwifery Professional Practice Framework.

Business Unit Overview

The Western Health Division of Cancer, Cardiology and Specialty Medicine provides a comprehensive suite of inpatient, clinic, and community-based care.

The Cardiology Unit provides inpatient and outpatient cardiac services and consists of Cardiac Care Unit (CCU), Cardiac Catheterisation Laboratory (CCL) and Non-Interventional Cardiac Diagnostic Units.

Our Vision

Together, we deliver the healthcare of the future.
Simple – Sustainable – Connected - Innovative

The CCU is situated at both Footscray and Sunshine and comprises Coronary Care beds and telemetry-monitored beds. The CCU cares for acutely unwell patients with acute coronary syndrome, arrhythmias, heart failure and patients requiring elective cardiac procedures as well as medical and surgical patients requiring acute cardiac care. Additionally, the CCU supports the cardiac arrest service across Footscray and Sunshine Hospitals.

The CCLs are situated at Footscray and Sunshine Hospital and provide diagnostic, interventional and electrophysiology services for both inpatients and elective outpatients. The CCL provides a 24-hour on-call service for urgent percutaneous coronary interventions.

The outpatient Cardiac Diagnostic Service operates from Sunshine Hospital and support non-interventional diagnostic testing and extends support to inpatient Echocardiography and the CCLs at both Footscray and Sunshine Hospital.

Western Health haematology and oncology patients are cared for across five Western Health campuses – Sunshine, Footscray, Sunbury, Bacchus Marsh and Melton – offering a range of services such as Medical Oncology, Haematology, Palliative Care, Inpatient Acute Care, Day Oncology, Oncology HITH, Radiotherapy and Specialist Clinics.

The Oncology service reviewed approximately 2,403 new Medical Oncology & Haematology patients for the 2022-2023 financial year.

Western Health's Cancer services research unit conducts trials across adult Medical Oncology Surgical, Radiation, Haematology and Palliative Care areas.

The Special Medicine program provides services across inpatient wards, specialty units and ambulatory care. These include:

- Sunshine inpatient wards:
 - 3E – Stroke, Neurology & General Medicine
 - 3F – Respiratory Medicine, Infectious Diseases & General Medicine
- Footscray inpatient wards:
 - 2D – Respiratory Medicine, Infectious Diseases & Gastroenterology
- Medical Ambulatory Day Unit (MADU) at both Footscray & Sunshine provides same day treatment for patients with a variety of conditions. MADU supports patients with a comprehensive suite of therapies including blood transfusions; venesections; iron infusions; lumbar puncture; immunoglobulin infusions; steroid infusions; haematology/oncology treatment; zometa infusions; iron infusions and infliximab infusions.

The Medical Ambulatory Day Unit (MADU) functions across two campuses Sunshine and Footscray. This specialized unit is dedicated to mitigating the need for inpatient admissions by administering treatment that would typically require hospital stays, all within the framework of a same day admission setting. The role of the Registered Nurse within MADU is responsible for ensuring the prompt and effective delivery of care to patients in this same day context. This involves seamless coordination of infusions and treatments in collaboration with inpatient medical teams and external referral sources.

- Medical Diagnostics including Sleep Studies, Respiratory and Neurophysiology services.
- Specialty Units: Respiratory & Sleep Medicine, Infectious Diseases, Rheumatology, Neurology & Stroke, Dermatology, and Gastroenterology.

Key Responsibilities

Leadership

Our Vision

Together, we deliver the healthcare of the future.
Simple – Sustainable – Connected - Innovative

- Work collaboratively within the nursing team model of care using delegation, supervision, coordination, consultation and referrals
- Take accountability for own actions and others under direction and sphere of responsibility
- Role model behaviours consistent with the professional Code of Conduct and organisational values and challenge others when their behaviour does not meet expectations
- Lead by example, and motivate staff to strive for excellence
- Demonstrate initiative in supporting early career and less experienced staff
- Contribute to peer feedback and engage in appraisals for early career staff, as directed by your manager
- Work within and towards the Nursing and Midwifery Workforce Plan

Research

- Use evidence to support improvement to consumer care and practice
- Be curious about ways to improve practice and outcomes
- Promote evidence based practice and share findings at internal and external forums
- Participate in quality and research projects as appropriate

Evidence Based practice

- Using evidence-based practice, participate in evaluation of the progress of individuals and groups towards expected outcomes and reformulation of care plans.
- Be familiar with local and organisational policies, procedures and guidelines
- Contribute to adverse event investigations, and undertake individual and team-based reflective practice
- Participate and contribute to improvement of policies, procedures and protocols and identify areas of improvement in nursing practice
- Participate in new initiatives to enhance consumer outcomes and experience, or staff employment outcomes and experience
- Act to ensure safety by managing clinical risk and intervene, as necessary, to achieve optimal outcomes for patients/consumers and teams
- Be aware of Western Health's Strategic Priorities, and ensure activities align with these priorities

Education & Learning

- Participate in ongoing learning opportunities
- Contribute to the updating of educational information provided to patients and consumers, and their families and carers
- Support new staff through the orientation buddy role or formal preceptorship
- Showcase work and improvement activities
- Provide timely informal and formal feedback to students, early career and novice staff
- Exchange and share information with colleagues via informal or formal forums such as huddles, in-services, presentations, education forums, team meetings.

Clinical expertise

Enter specific responsibilities here or delete

- Assess the clinical, non-clinical and social needs, including the identification of 'at risk' consumers and record with appropriate and accurate documentation in the consumers history and care plan and implement consumer specific risk minimisation strategies
- Demonstrate accountability and responsibility for care delivered
- Recognise changes in consumers' condition and take necessary action including reporting and escalation seeking appropriate assistance
- Accurately reflect the consumers requirements, outcomes or events within prescribed Western Health documentation, ensuring all legal requirements are met in regards to legibility of content and identity of reporter in accordance with Western Health policies and procedures

Our Vision

Together, we deliver the healthcare of the future.
Simple – Sustainable – Connected - Innovative

- Effectively develop discharge plans that reflect the needs of consumers and their significant others and demonstrates an understanding of the role of community providers
- Role model best practice and reference latest research
- Identify clinical practice improvement opportunities and discuss with your manager
- Perform other nursing duties as required

In addition to the key responsibilities specific to your role, you are required to deliver on the [Key Organisational Accountabilities](#) which are aligned with the Western Health strategic aims.

Key Working Relationships
