The Orange Door

The Victorian Government has committed to implementing all 227 recommendations of the Royal Commission into Family Violence and to delivering on the vision described in Roadmap for Reform.

A key recommendation of the Royal Commission and the Roadmap for Reform was to establish a network of Support and Safety Hubs ('Hubs') across Victoria to provide a new way for women, children and young people experiencing family violence, and families who need assistance with the care and wellbeing of children to access the services they need to be safe and supported. These Hubs are known as The Orange Door. The Orange Door brings together different agencies and practice specialties under the one umbrella with a focus on best practice integrated support. The Orange Door team includes a mix of staff employed by FSV and staff employed by CSOs, Aboriginal services and DHHS. For each launch site the size of the team will vary to reflect the local needs.

The Orange Door is also intended to hold people who use violence to account by providing best practice assessment and interventions to address the risk people who use violence pose and to challenge their controlling, violent and abusive behaviour. The Orange Door keeps the whole family in view and provides a more visible contact point to access family violence services, family services and people who use violence services and supports tailored to each family member's needs.
