

POSITION DESCRIPTION

Position Title:	Electrician
Business Unit/Department:	Engineering Services
Division:	Health Support Services
Award/Agreement:	Maintenance (Victorian Public Sector) (Single Interest Employers) Enterprise Agreement
Classification:	Metal Technician: Level 10 (OB41)
Reports To:	Facility Manager/Team Leader
Direct Reports:	N/A
Date Prepared/Updated:	22 April 2026

Position Purpose

The Electrician's role at Western Health is to assist the Facility Management Team in maintaining the integrity of our Electrical systems in support of heating, ventilation, air-conditioning, hot water, emergency, safe drinking water and safe sterilisation. They play a crucial role in working harmoniously with others to deliver high-quality services, which are essential for ensuring the health and well-being of all patients, staff and visitors at Western Health.

Business Unit Overview

The Facility Management Team at Western Health are committed to ensuring that all buildings, grounds, services, plant, equipment, machinery, furniture & fittings perform efficiently, are maintained and serviced in such a manner that they provide a safe and pleasant environment for patients, staff and visitors to the hospital.

We take pride in providing the essential services that support healthcare, serving one million residents in the West. Western Health is looking for an Electrician to assist the Facilities Management team in maintaining our complex Hospital infrastructure.

Key Responsibilities

The Engineering Services Department requires an Electrician who will assume responsibility for various tasks. While the role encompasses a wide range of duties, it is supported by a team of other trades. This position offers an excellent opportunity for individuals who enjoy the dynamic nature of work that changes daily.

The Electrician is responsible for working at all Western Health sites, which currently encompass facilities in Sunshine, Footscray, Williamstown, Sunbury, Bacchus Marsh, Melton and associated satellite sites including the Central Production Kitchen in Altona.

Our Vision

Together, Caring for the West
Patients – Employees – Community – Environment

As per the Department's organizational structure, the Electrician is expected to provide the following services:

Electrical:

- Ensure the safety, compliance and operational integrity of all electrical systems and equipment, with particular emphasis on portable and user-operated equipment.
- Test and tag new and existing electrical equipment in accordance with statutory and organisational requirements prior to use.
- Maintain, repair and service electrical plant, equipment and fittings in accordance with the PULSE/CMMS system on a day-to-day basis.
- Attend to electrical maintenance, fault response and operational requirements across all Western Health sites.
- Maintain familiarity with emergency response procedures relating to electrical systems and participate in associated maintenance activities.
- Utilise the Building Automation System (BAS/BMS) to diagnose electrical and system faults as appropriate.
- Complete, submit and maintain all required Electrical Compliance Certificates and associated documentation.

General:

- Maintain tools and equipment in a safe, secure, and serviceable condition.
- Report defects and maintenance requirements promptly.
- Assist in maintaining appropriate stock levels of spare parts and materials.
- Provide clear communication and updates to stakeholders regarding work status.
- Support contractors, particularly during system shutdowns.
- Participate in the preventative maintenance program.
- Respond to on-call/after-hours breakdowns as required.
- Accurately complete work orders using the CMMS system to maintain asset history.
- Provide technical support to Engineering Services, contractors, and staff.
- Maintain a sound understanding of building services and hospital infrastructure systems.
- Undertake additional duties as directed by the Facilities Management Team such as new works or those outside your trade.

Level 10 Specific:

- Prepare technical reports and documentation as required.
- Interpret plans and technical information to diagnose and resolve issues.
- Identify and report deviations from plans or specifications.
- Plan and coordinate work activities for a team and report on progress and quality.
- Act in the Team Leader role when required.
- Maintain maintenance records, including cost and frequency analysis.
- Provide guidance, support, and training to team members.
- Work with limited supervision, exercising sound judgement and discretion.
- Monitor equipment condition using appropriate diagnostic tools and techniques.
- Undertake quality control and work coordination at a level appropriate to this classification.

Teamwork:

- Foster positive working relationships and contribute to team objectives.
- Participate in meetings, training, and team development activities.
- Support onboarding and mentoring of new staff.
- Promote efficient use of resources and cost-effective practices.
- Stay informed of industry developments and recommend improvements.
- Collaborate with team members to resolve maintenance issues effectively.

Practice and Conduct:

- Work in alignment with Western Health's values and "Statement of Best Care."
- Perform duties with consideration for patients, staff, and visitors.
- Adhere to all relevant policies, procedures, regulations, and ethical standards.
- Maintain a professional approach focused on safety, reliability, and service delivery.

Our Vision

Together, Caring for the West
Patients – Employees – Community – Environment
