

POSITION DESCRIPTION

Position Title:	Paediatric Consultant
Business Unit/Department:	Paediatric Medicine
Division:	Women's and Children's
Award/Agreement:	AMA Victoria – Victorian Public Health Sector Medical Specialists Enterprise Agreement 2018-2021
Classification:	As per level of experience, in line with Award
Reports To:	Clinical Lead of Unit, Head of Service, Clinical Services Director, Chief Medical Officer
Direct Reports:	Junior Medical Staff
Date Prepared/Updated:	11 April 2023

Position Purpose
<p>To undertake community and general paediatric clinical sessions at Melton Health and Bacchus Marsh Hospital as part of a multi-disciplinary paediatric service, supporting a culture of patient-centred care. Clinics may occur at other Western Health sites, or Partner sites throughout the Brimbank-Melton municipalities.</p> <p>The successful applicant will participate in Speciality multidisciplinary assessment clinics which may include Autism Spectrum Assessment Clinics, Pathways to Good Health clinics (comprehensive paediatric assessment for children in out of home care), Developmental or Behavioural clinics, and General Paediatrics clinics.</p> <p>In addition, the Paediatrician will participate on the acute on-call roster at Bacchus Marsh Hospital Special Care Nursery – including weeknight and weekend on-call cover.</p>
Business Unit Overview
<p>The Melton Community Paediatric team is a multidisciplinary unit, providing comprehensive assessment and management for children with a range of conditions. Services are delivered at Melton, Bacchus Marsh, and other community outreach sites within the Western Health catchment areas. Children and adolescents with developmental, behavioural, mental health, and general medical conditions are cared for by a team of Paediatricians, speech pathologists, occupational therapists, physiotherapists, psychologists, social workers, and nurses.</p> <p>The Bacchus Marsh Hospital has a 3-bed Level 3 neonatal Special Care Nursery (SCN) supporting a maternity service that has approximately 400 deliveries per year. The unit cares for infants from 34 weeks' gestation.</p> <p>Western Health provides inpatient and outpatient paediatric care for children with a wide range of medical and surgical conditions. The Paediatricians regularly liaise with other departments within Western Health, as well as with the tertiary centres for Paediatric care in Victoria, including PIPER. Paediatricians regularly</p>

Our Vision

Together, Caring for the West
Patients – Employees – Community – Environment

liaise with external agencies and services to provide Best Care to all children presenting to Western Health sites.

Key Responsibilities

- Provide clinical care to patients in outpatient services, including Behavioural and Developmental Services and/or General Paediatric clinics.
- Attend consulting clinics as scheduled and ensure appropriate handover and follow-up plans are provided to allow continuity of care for patients
- Accurately reflect the patient's treatment plan, requirements, outcomes or events within prescribed documentation to support ongoing care and communication
- Participate in quality improvement and clinical risk management activities and promotion of continuous service improvement
- Practice evidence-based medicine and analyse and use data to guide decisions, assess outcomes, and identify areas of improvement in clinical practice
- Demonstrate high level communication skills and clear, timely and respectful communication with members of the multidisciplinary team
- Contribute to any paediatric clinical service reviews of serious incidents
- Provide timely advice and supervision to Junior Medical Staff to promote appropriate and safe clinical care to patients and be accountable for the care delivered by junior medical staff
- Be accountable for managing patient waitlists and timely triage of new referrals where applicable
- Develop patient care plans that reflect the needs of patients and their significant others and demonstrates understanding of the role of community providers
- Participate in the development, implementation, and revision of treatment protocols and clinical guidelines
- Participate in departmental service planning as requested by the Unit/Department Head and Clinical Service Director
- Participate in clinical teaching and professional development of junior medical staff, medical students, and students of other health disciplines
- Maintain personal qualifications and expertise in accordance with continuing certification requirements of relevant medical college or other body
- Ensure that any dealings with the medical, including interactions on social media, are in accordance with Western Health policy, procedure and privacy legislation

Bacchus Marsh Special Care Nursery:

- Participate in on-call and after-hours work as agreed between the Clinician and the Health Service
- Contribute to a collegiate team relationship between all the team members working in Paediatrics, including Obstetricians, Midwives, Nurses, Allied Health and Anaesthetists
- Facilitate daily ward reviews of patients in the Special Care Nursery where this has been agreed
- Support and advise Midwifery & nursing staff on management of patients when appropriate
- Maintain competency in Neonatal Life Support and CPD activities related to the care of newborns.
- Advise supervisors of any issues in the Maternity Unit or Special Care Nursery which may present a 'risk' to providing high quality of care to patients presenting to the health service
- Participate in meetings as requested and provide input on clinical care issues e.g. Maternity & Neonatal Service Committee & Obstetrics Mortality & Morbidity Meetings

In addition to the key responsibilities specific to your role, you are required to deliver on the [Key Organisational Accountabilities](#) which are aligned with the Western Health strategic aims.
